

What a dog wants

I want a safe garden to play in and I need to be walked every day

I want to be taken to a vet for injections every year, and whenever I am unwell

I want you to look after me for all of my life, even when I am old

I want company and not to be left on my own for too long

I want to be brushed every day to keep a clean and healthy coat

I want my own bed and blanket and safe place to sleep

I want to have a well balanced diet and fresh drinking water all the time

I want to have my own toys and play time with you

DO YOU STILL WANT ME?
